

YEEC Youth Environmental Education Congress

March 13-17, 2022 | Prague | Czech Republic
Open for participants aged 14-26 representing civic, environmental, sustainability and educational initiatives and programmes.

The Youth Environmental Education Congress (YEEC) is organized as a side event of **THE 11th WORLD ENVIRONMENTAL EDUCATION CONGRESS (WEEC)** in Prague, Czech Republic.

The YEEC brings together active youths from across the world to inspire and support one another alongside experiencing an engaging 5-day programme. Working together, young people will deliver a message on youth needs and environmental education at the WEEC; they will discuss it with leading world educators and key actors in environmental education.

The YEEC focuses on the support and development of youth with active participation in **public affairs, education, environmental, climate and sustainability issues**. The program consists of interactive workshops, seminars, educational excursions and trips, round table discussions, team-building, group activities, presentations delivered by famous speakers participating at the WEEC and the final gala evening.

„The YEEC is a unique event driven by young people who are changing the world by being active within civic and environmental challenges and pursuing the enhancement of their education and steps for a long-term future.“

Expected participation fee: 140 euro/pp (inclusive of the full 5-day programme, refreshments and gala evening; however, transport, accommodation, meals are not included). Applicants with economically difficult conditions might apply for a discount or subsidy. Organisers will offer help with the search for economically viable lodging and dining during the event.

The YEEC is organised by the Centre of Environmental Education SEVER (Czech Republic) with support of the WEEC Network and WEEC Programme and Organising Committee, Czech Ministry of Environment, Brontosaurus Movement, the Foundation for Environmental Education, and Erasmus+.
